

A close-up, high-angle portrait of a young child with dark skin and bright blue eyes. The child is looking slightly to the right of the camera. The lighting is warm and soft, highlighting the texture of the child's hair and skin. The background is a blurred, warm-toned surface.

FILTERED WATER  
WHEREVER YOU ARE

UJETA<sup>®</sup>   
WATER  
FILTER

# THE PROBLEM

"Water is becoming scarce and its quality is at risk. Around half the world's population uses water of dubious quality due to a lack of access to drinking water."

**WHO 2001**

"Only 0.3% of the world's water resources can be used as drinking water!"

**Water Congress 2014 in Vienna**

"Diarrhoeal diseases as a result of inadequate water supply affect four billion people a year - one child under the age of five dies every 20 seconds."

**World Water Day 2014"**

"Over one billion people have no access to clean drinking water."

**WHH Water-Sector Bericht**

"One of the solutions to the problem is filtration directly at the point of use."

**World Water Day 2014**

# UJETA CARE

**THE UJETA WATERCASE ENABLES YOU TO FILTER WATER WITHOUT ELECTRICITY AND WATER PIPE.**

This means that you can simply use the UJETA water filter to produce drinking water from surface water (lakes, rivers, fountains).

Thus we offer a solution that can be deployed in crisis areas, in regions hit by natural disasters or in regions with a generally inadequate water infrastructure to ensure a basic supply of drinking water. The case basically consists of a plastic housing designed to convey water (and to prefilter coarse particles), an UJETA waterfilter, a cartridge and a pump unit.

**MICRO-FILTRATION WITH 4-STAGE FILTRATION**

# ALL INCLUDED

Another unique feature is its ease of operation which is literally child's play. It is designed in a way that enables women and children to prepare easily clean drinking water for themselves. The case weighs approximately 12.5 kg when filled with 10 l water.

**THE RESULT: CLEAN, CLEAR DRINKING WATER!**

# THE UJETA WATERFILTER

The unique design of the UJETA water filter makes it one of the smallest and most effective water treatment systems available. Weighing just 340 gram, this mobile water filter is reliable and can be set up quickly. This system brings a sustained improvement in drinking water supplies worldwide because it filters water where it is needed, not where it is extracted.

Filtering water directly at the point of use is highly efficient. And the attractive price-performance ratio of the UJETA waterfilter makes it affordable for everyone.

## IT'S A WATERFUL FRIEND!

- High-quality activated carbon filter "Made in Germany"
- Ultra-fine membrane for maximum filter performance
- Combined ultrafiltration as per LOG 6 classification
- All installed components are food-safe
- Water vitalised by energising crystals
- Spring water quality with special swirl technology
- 5000 litre filtration performance

THE HEART OF THE UJETA WATER FILTER PROGRAM

# HOW IT WORKS:

## UJETA FILTER REDUCES/REMOVES:

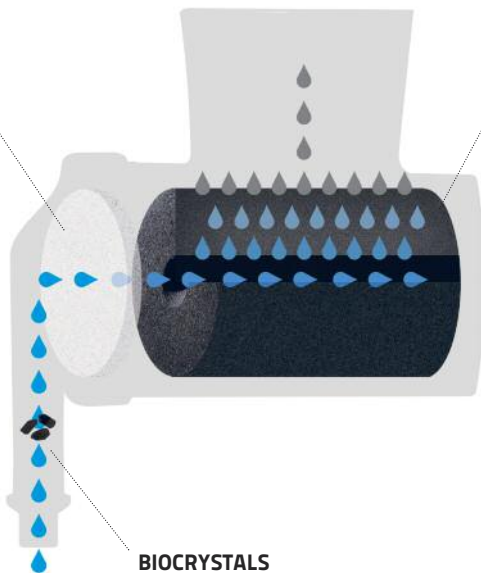

- 99.9995% OF ALL BACTERIA
- 99.9995% OF ALL GERMS
- HEAVY METALS (E.G. LEAD & COPPER)
- DRUG RESIDUES
- CHLORINE AND ITS BY-PRODUCTS
- PESTICIDES
- ORGANIC COMPOUNDS
- ASBESTOS FIBRES

## MEMBRANE FILTER

- HIGH-TECH hollow fibre membrane
- Minerals are preserved in the water
- Filter fineness of up to  $0.1\mu\text{m}$  retains bacteria, fungi, germs, metal particles and microorganisms

## ACTIVATED CARBON FILTER

- Pure activated carbon, a natural product
- Patented refining process
- Residue controlled and LGA monitored
- Designed and manufactured in Germany
- Filter fineness of up to  $0.45\mu\text{m}$  combined with the high absorption effect of activated carbon

## BIOCRYSTALS

- Special swirl technology
- Energising crystals
- Restores springwater quality

# LIFE SAVER ON PALLETS

We support you with your international UJTEA order regarding logistical requirements and import documents.

## CARE

1 IPPC palette à 50 pcs  
Size of palette: 120 x 80 x 205cm  
Gross weight: 220 kg

## HOME + TRAVEL SET

1 IPPC palette à 270 pcs  
Size of palette: 120 x 80 x 195cm  
Gross weight: 220 kg

### DELIVERY TIME:

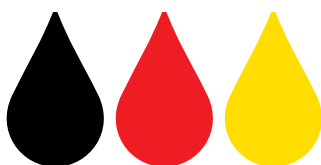

on stock, subjekt to prior sale - without obligation

### DELIVERY TERMS:

ex work, packaging included

### PAYMENT TERMS:

- payment in advance
- net cash

# WATER TESTS WITH UJETA WATER FILTER

## THERE ARE WATER POLLUTIONS IN 1000-FOLD VARIATIONS

So we carry out constantly microbiological investigation to guarantee the effectiveness of the Ujeta water filter for your health

Our tests are carried out by the famous drinking water lab under the direction of Dr. Staber. Besides, the changes of the water are measured under scientific conditions in a before/after investigation by a filtration with an Ujeta water filter

### EXTRACTS FROM THE TEST RESULTS: BRACKISH WATER FROM THE POND

Parameter	Without filter	With filter	Unity	Limiting value	Process
Coliforme bacteria	1	0	MPN/100ml	0	Colilert-18/Quanti Tray
E.coli	200,5	0	MPN/100ml	0	Colilert-18/Quanti Tray
Intestinale Enterokokken	3	0	KBE/100 ml	0	DIN EN ISO 7899-2 (K15) 2000-11

### The efficiency of the Ujeta was confirmed by many other tests.

Reduction of bacteria, germinates, drug residues, heavy metals, chemicals and pesticides for Log 6.

# THE UJETA GMBH

## COMPANY POLICY

- Reliable and flexible customer care
- Experience of international trade with customs and export regulations
- Medium-sized enterprise with the personal touch

## QUALITY CLAIM

- Production in Germany in line with the highest quality standards
- Highest processing standards
- Quality product "Made in Germany"
- Reliable and flexible capacity to deliver on schedule

## PRODUCTION:

### Schneider Kunststofftechnik GmbH

- Schneider Kunststofftechnik is a traditional firm responsible for producing UJETA filters. It has specialised in plastics processing for over 20 years.
- **certified according to**  
DIN ISO 9001  
DIN ISO 14001  
DIN ISO 50001
- Schneider Kunststofftechnik participates in the **Bavaria Environmental Pact**

Hasberger Str. 9c  
87757 Kirchheim

A close-up photograph of a woman and a young child. The woman, on the left, is smiling and looking down at the child. The child, on the right, is focused on operating a blue manual water filter. The filter has a black handle and a blue spout. The background is a warm, orange-toned light, suggesting an outdoor setting. The text 'A WATERFUL DAY' is overlaid in the center in a white, hand-drawn font.
